PACKAGING: 30 swallowable hard capsules of 400 mg, inserted in two blisters of 15 capsules each, with leaflet.

• **SENNA FUNCTIONS:**

*To perform an elective tropism towards the large intestine.
To enhance an activation of the peristalsis.
The result is a natural laxative effect.*

• **ALOE FUNCTIONS:**

To stimulate the muscle contractions of the terminal section of the intestine helping to facilitate the peristalsis.

• **RHUBARB FUNCTIONS:**

*To stimulate the secretion of gastric juices and the intestinal peristalsis.
To promote the motility of the intestinal smooth muscles.*

• **AGAR AGAR AND CHARCOAL:**

They are present in the product formulation to contribute, with a synergic effect, to improve the intestinal transit and the digestive functions.

• **RHAMNUS FRANGULA:**

Regulates intestinal function and facilitates peristalsis. At the colon level it inhibits the reabsorption of water and salts from the feces, making them softer.

• **COLOSTRUM:**

It protects the gastrointestinal tract from viruses, bacteria, allergens.
