• **RHUBARB FUNCTIONS:**

**To stimulate the secretion of gastric juices and the intestinal peristalsis.  
To promote the motility of the intestinal smooth muscles.**

• **SENNA FUNCTIONS:**

**To perform an elective tropism towards the large intestine.  
To enhance an activation of the peristalsis.  
The result is a natural laxative effect.**

• **BUCKTHORN FUNCTIONS:**

**To stimulate the muscles of the large intestine regulating the intestinal functions and promote the peristalsis. At level of colon, to inhibit the reabsorption of water and salts, helping the production of soft stools.**

• **ALOE FUNCTIONS:**

**To stimulate the muscle contractions of the terminal section of the intestine helping to facilitate the peristalsis.**

• **VERBENA - DANDELION - FENNEL - CINNAMON - TURMERIC -  
CARAWAY - STAR ANISE - MALVA:**

**They are present in the product formulation to contribute, with a synergic effect, to improve the intestinal transit and the digestive functions.**
