

IMMUVIS™-P

**TO ENHANCE THE BODY IMMUNE SYSTEM
WITH A DOUBLE ACTION BASED ON SOD AND GPX**

PRODUCT CLASSIFICATION:
Food Supplement.

ACTIVE INGREDIENTS:

- ◆ Fermented Papaya **250 mg**
- ◆ Selenium **83 µg**

HOW TO USE: 1 tablet a day in between meals.

INDICATION: In all cases of immune deficiencies caused by use of medicines, stress, hypoestrogenism. Really useful in the treatment of recurrent infections such as Vulvo-Vaginitis, Herpes, Vitiligo.

PACKAGING: 30 tablets in 2 blisters of 15 tablets each inserted in a fold box with leaflet.

FERMENTED PAPAYA:

It protects the cells from free radicals, by destroying the hydroxyl Radicals (the most dangerous ones). Besides, it improves the immune system by assuring the revitalisation of the activity of the superoxide dismutase (SOD) in the body's metabolism.

SELENIUM:

It maintains the integrity of the cellular membranes. It produces killer lymphocytes and interleukin that attack viruses as soon they manifest. It enters in the composition the main antioxidant enzyme, glutathione peroxidase (GPX) which protects cells from oxidative stress.
