**PACKAGING:** *30 ml in a glass bottle with sealed dosing pump, inserted in a fold box with leaflet.*

#### **ECHINACEA:**

*It is an herb with antibacterial, antiviral and immune stimulating activities. It enhances the body's natural defences against viruses, including that of flu.*

#### **ZINC:**

*It is the most important natural defense against cold and flu. It is used by our body to improve its immune defences in case of all viral infections.*

#### **PROPOLIS:**

*It is considered the most powerful natural antibiotic. It is a resinous substance that bees collect from the buds of some plants. It has antibacterial, antiviral, antimicrobial, immune stimulant properties.*

#### **ROSEHIP and BLACK CHERRY:**

*Thanks to the high concentration of natural Vitamin C, these substances have a consistent immunomodulatory and anti-inflammatory effects.*
