### ZINC:

*It is the most important natural defence against cold and flu. It is used by our body to improve its immune defences in case of all viral infections.*

### SELENIUM:

*Adequate levels of selenium in the body are essential for the proper functioning of the immune system and to improve the body defences in presence of inflammatory states.*

### VITAMIN C:

*This vitamin is well known for its anti-oxidant and anti-inflammatory activity. Extra supplementation of Vitamin C is recommended in all cases of decreased immune defence.*

### ECHINACEA:

*It is an herb with antibacterial, antiviral, immune stimulating activity. It enhances the body's natural defences against viruses, included that of flu.*

### WILLOW:

*It is a plant with analgesic, anti-pyretic, anti-rheumatic properties, useful in presence of flu and cold symptoms.*
