

PECTIFLOR™

PREBIOTIC + PROBIOTIC IN EFFERVESCENT TABLETS

PRODUCT CLASSIFICATION:
Food Supplement.

ACTIVE INGREDIENTS:

- ◆ Inulin 3 g
- ◆ Lactobacillus sporogenes 5 billion CFU*

TASTE: Light green apple

HOW TO USE: 1 effervescent tablet, once a day, dissolved in a glass of water, preferably in the morning.

INDICATION: In case of gastrointestinal disorders such as diarrhea (caused by antibiotics, bowel radiation, infections), IBS (irritable bowel syndrome), IBD (inflammatory bowel disease), intestinal constipation. Suitable also for in pregnant women.

PACKAGING: 2 tubes of 10 effervescent tablets inserted in a fold box with leaflet.

*Colony Forming Units

INULIN (THE PREBIOTIC):

*It improves the intestinal ecosystem, stimulating the peristalsis.
It has a metabolic effect, improving lipids and reducing cholesterol
and triglycerides serum levels.*

It facilitates the mineral salt absorption.

LACTOBACILLUS SPOROGENES (THE PROBIOTIC):

*Thanks to its microencapsulated form, it survives from
the action of temperatures, gastro juices and bile salts.
It creates a barrier against pathogenic germs in the whole intestinal tract.
It helps to produce lactic acid to normalize
the intestinal ecosystem and to increase the immune defenses.*
