IN CASE OF COLIC GAS IN CHILDREN TO SUPPORT THE DIGESTIVE FUNCTION AND THE REGULAR GASTROINTESTINAL MOTILITY

PRODUCT CLASSIFICATION

Food supplement

ACTIVE INGREDIENTS:

- ◆ Chamomile
- ◆ Lemon Balm
- ◆ Fennel
- ◆ Cumin
- ◆ Peppermint
- ◆ Star anise

INDICATION: in case of baby colics, it is useful for gas elimination. It also helps to support digestive function and regular gastrointestinal motility.

HOW TO USE: 10 – 15 drops a day, pure or diluted in water or other beverages. Shake the bottle before use.

PACKAGING: flacon of 30 ml with dropper, inserted in a fold box with leaflet.

CHAMOMILE:

Chamomile, thanks to its antispasmodic properties, produces muscle relaxation due to the presence of coumarin flavonoids.

It is able to eliminate intestinal gas and promote digestion, producing a general improvement the functionality of the gastro-intestinal system.

It also has natural anti-inflammatory properties thanks to the protective action on the mucous membranes.

LEMON BALM:

Lemon balm, thanks to its leaves rich in essential oil, is useful in the presence of colitis for its antispasmodic, anti-inflammatory and carminative action.

It is also able to perform a relaxing action on the muscular system.

FENNEL, PEPPERMINT AND CUMIN:

Thanks to their relaxing action, they contribute to better intestinal transit and digestive function with a synergistic effect.

STAR ANISE:

Star anise has carminative, stomachic and sedative properties. As such it is able to prevent the formation of gas in the gastrointestinal tract and to reduce flatulence and swelling.
