

MARVIT®

Cal-Safe Plus®

FOR THE HEALTH AND WELLNESS OF YOUR BONES

PRODUCT CLASSIFICATION:

Food Supplement.

ACTIVE INGREDIENTS:

- Calcium bisglycinate **500 mg**
- Magnesium bisglycinate **137.80 mg**
- Vitamin K2 **50 µg**
- Vitamin D3 **5 µg**

INDICATION: Useful in presence of deficiency or in case of increased demand of these nutrients. Especially indicated during menopause, to contrast bone fragility, or during convalescence process after bone injury.

HOW TO USE: 1 or 2 capsules a day preferably after main course.

PACKAGING: 3 blisters of 10 vegetable capsules each, inserted in a foldbox with leaflet.

CALCIUM BISGLYCINATE:

Calcium is the main constituent of the skeleton structure and it is essential in the bone remodeling process.

Calcium bisglycinate has a much higher bioavailability than calcium carbonate or calcium citrate.

MAGNESIUM BISGLYCINATE:

Magnesium assists the absorption of calcium and together they regulate the acid-alkaline balance of the organism.

VITAMINS K2 and D3:

Vitamin K2 and D3, being able to activate the osteocalcin protein, are essential for calcium absorption in bone tissues.
