- ◆ Vitamin E

HOW TO USE: Apply a thin layer of cream up to 3 times a day on the rinsed and well dried vaginal area affected. For external use only.

PACKAGING: 30 ml in plastic laminate tube inserted in a fold box with leaflet.

MIMOSA TENUIFLORA:

It has exceptional healing abilities against inflammations, burns, wounds, having strong regenerative properties of the epithelial tissues. It also plays an anti-hyaluronidase activity, by blocking the enzyme responsible of the demolition of the hyaluronic acid.

HYALURONIC ACID:

It is able to maintain and to improve the degree of hydration and turgidity of the epithelial tissues, promoting their tropism against inflammation.

VITAMIN E:

It plays an anti-inflammatory action and it is very important in the repair processes of the epithelium in presence of micro-ulcerations and inflammations.
