- Green tea **333 mg**
- Apple cider vinegar **230 mg**
- Inulin **153 mg**

HOW TO USE: 1 or 2 tablets a day to be dissolved in a glass of water before a meal. Do not exceed the recommended dose.

- For a detoxifying effect: 1 tablet a day.
- For a slimming effect: 2 tablets a day.

It improves its effectiveness together with a hypocaloric diet.

PACKAGING: 12 effervescent tablets each of them sealed in a double foil and inserted in a fold box with leaflet.

TASTE: Apple.

GREEN TEA

The high content of catechins gives green tea powerful antioxidant properties. In addition, the catechins can increase the metabolism of fats and sugars, facilitating the loss of body weight.

Green tea also has a diuretic effect (useful for fighting water retention) and anorexizant (suppresses hunger).

INULIN

It is a dietary fiber derived from the chicory. It is not metabolized by the body and therefore does not bring calories.

Regulates the absorption of sugars and fats in the intestine, limiting the caloric intake.

As a fiber, it favors and regulates the intestinal functions and transit.

APPLE CIDER VINEGAR

It is an fermented extract that preserves all the healthy elements of the apple.

It contains vitamins, minerals and trace elements and useful enzymes, with purifying properties.
