

SelevisTM

THE ESSENTIAL ANTI-OXIDANT FOR MEN AND WOMEN

PRODUCT CLASSIFICATION:

Food Supplement.

ACTIVE INGREDIENTS:

- Selenium **75 µg**
- Zinc **12.5 mg**
- Beta-carotene **5 mg**
- Vitamin C **60 mg**
- Vitamin E **30 mg**

INDICATION:

- It contributes to the normal function of the immune system (Selenium, Vitamins A and C, Zinc) and to the protection of cells from oxidative stress (Selenium, Vitamins C and E, Zinc).
- It contributes to normal thyroid function since low plasma levels of Selenium cause an increase in the damage of the thyroid tissues (Selenium).
- It helps to reduce the toxicity of chemotherapeutic agents due to its ability to remove and metabolize heavy metals (Selenium).
- It decrease the occurrence of spontaneous abortions in the first 4 months of pregnancy (Selenium).

HOW TO USE:

1 tablet a day with a glass of water between meals.

PACKAGING:

30 vegetable tablets in 2 blister inserted in a fold box with leaflet.

SELENIUM:

It is a powerful and natural antioxidant substance able to protect the cellular membranes from the attack of the free radicals.

ZINC:

It has a very strong capability to improve the natural immune defences of the body. Furthermore, it contributes to normal fertility and normal reproduction.

BETA-CAROTENE and VITAMINS C-E:

They play a synergic action to increase bioavailability and anti-oxidant action of Selenium and Zinc.
