<u>Children 3-5 years old</u>: 5 drops <u>Children 6-8 years old</u>: 6 drops <u>Children > 8 years old</u>: 10 drops

Take it as it is with a spoon or pour the drops in some water, fruit juices or milk. In the morning, away from meals. Follow the instruction of your doctor first.

PACKAGING: Flacon of 25 ml with dropper, inserted in a fold box with leaflet.

COLOSTRUM:

It protects the infant's gastrointestinal tract from viruses, bacteria, allergens.

EUCALYPTUS HONEY:

It is known as the "honey of diabetics" and plays a sedative and antiseptic activity protecting the oral cavity, pharynx and larynx.

ROYALL JELLY:

It is produced by bees and represents the essential food of the queen bee. It is rich in vitamins and used as a tonic in case of psycho-physical fatigue and lack of appetite.

PROPOLIS AND ECHINACEA:

They have antibacterial, antiviral, antimicrobial and immune stimulating activities, effective in enhancing the body's natural defences.

WHEAT GERM:

Wheat germ is a true concentrate of nutrients such as amino acids, fatty acids, mineral salts, B vitamins and tocopherols.

GREEK HAY:

It is a rich source of minerals (iron, manganese, copper, magnesium), vitamins (B1, B2 and B6), vegetable oils, and proteins, which give it replenishing and stimulating properties. It is excellent in case of malnutrition, anaemia, infantile weakness, convalescence and breastfeeding.
