

PELVIOL™

IN CASE OF: ENDOMETRIOSIS

PRODUCT CLASSIFICATION:

Food Supplement

ACTIVE INGREDIENTS

- ◆ Alpha-Lipoic Acid (ALA) 100 mg
- ◆ Palmitoylethanolamide (PEA) 125 mg
- ◆ Quercetin 50 mg
- ◆ Vitex agnus castus 70 mg
- ◆ Raspberry 70 mg
- ◆ Magnesium 56 mg

AREA OF USE:

is a food supplement based on Chaste tree, useful for counteracting disorders of the menstrual cycle and Magnesium, which contributes to electrolyte balance and the reduction of tiredness and fatigue. It also contains Palmitoylethanolamide (PEA), Quercetin and Alpha-Lipoic Acid.

HOW TO USE:

2 tablets a day.

PACKAGING:

4 blister packs of 10 tablets in a case with leaflet.

ALPHA-LIPOIC ACID (ALA):

It is a substance produced by the body that participates in biochemical reactions essential for maintaining the integrity of cell membranes and it is involved in several antioxidant mechanisms such as the regeneration of reduced glutathione (GSH) and ascorbic acid.

PALMITOYLETHANOLAMIDE (PEA):

PEA is naturally present in many tissues, including those belonging to the nervous system. It is part of the ALIAmides, a group of endogenous bioactive molecules involved in the homeostasis of inflammatory processes.

QUERCETIN:

It has been used for centuries in the supportive treatment of various female cycle disorders, such as premenstrual syndrome, breast tension and menstrual irregularities. Recent studies attribute to this plant the property of increasing the production of LH, i.e. the luteinizing hormone, raising and regulating the levels of progesterone and therefore promoting ovulation in a completely natural way.

AGNUS CASTUS:

It has been used for centuries in the supportive treatment of various female cycle disorders, such as premenstrual syndrome, breast tension and menstrual irregularities. Recent studies attribute to this plant the property of increasing the production of LH, i.e. the luteinizing hormone, raising and regulating the levels of progesterone and therefore promoting ovulation in a completely natural way.

RASPBERRY:

Thanks to its high content of antioxidants and vitamin C, the raspberry is useful for combating menstrual cycle disorders, throat wellness and regularity of intestinal transit.

MAGNESIUM:

Regulates many vital functions and participates in the activity of numerous metabolic cycles. It contributes to balancing our organism in a natural way, increasing our sense of well-being and restoring vitality and good mood. This mineral allows us to enjoy good health and general well-being when maintained at the right levels.
